The area chapters of this volume comprise the statistical portions of previously published area reports (series BC67-SA). Errors found after the original publication of the reports have been corrected and carried to the cities and counties affected. Corrections have not been carried to the standard metropolitan statistical areas, States, etc., unless they significantly affect the data for such areas.

Introduction

AUTHORITY AND SCOPE—The Economic Censuses are required by law under 13 U.S.C., sections 131, 191, and 224. The 1967 Census of Business portion of the Economic Censuses consists of firms engaged in retail trade, wholesale trade, and selected services (hotels and motels; personal, business, and repair services; and amusement and recreation services including the motion picture industry) which operated in the United States. In addition, the Census of Business covered public warehouses, dental laboratories, law firms, architectural and engineering firms, travel agencies, and truck and bus carriers not subject to economic regulation by the Interstate Commerce Commission. Data for the contract construction industry also were collected in this census but published in a separate series of reports. The 1967 Census of Business also covered Guam and the Virgin Islands. A separate 1967 Census of Business, Manufacturers, and Construction for Puerto Rico was conducted jointly with the Commonwealth Government.

KINDS OF BUSINESS COVERED—The 1967 Census of Selected Services covers the following industries as defined in the Standard Industrial Classification (SIC) Manual:¹

SIC code	Title
701, 703	Hotels, motels, camps, and trailer parks
72	Personal services
73	Miscellaneous business services
75	Automobile repair, automobile services, and garages
76	Miscellaneous repair services
78	Motion pictures
79	Amusement and recreation services, except motion pictures (excludes nonprofit membership recreational services)

The basic tabulations on Selected Services in this publication are limited to the above classifications. They exclude motion picture theaters operated by the U.S. Department of Defense on military posts. A separate presentation of the data for these theaters appears in table 10 of this report. The basic tabulations also exclude data for administrative offices, captive warehouses, and other units which perform supporting service or are auxiliary to service establishments within the same organization. Data for such establishments will be found in tables 12 and 13 of the individual State reports. See the Kind-of-Business Classifications section of Appendix A, General Explanation, for definitions of the kind-of-business categories for which data are shown in this report.

Data were also collected for the following industries which will be presented in later reports:

SIC code	Title
pt. 4111, ² 4119, ² 413,4	Bus transportation, except school buses ³
421, ³	Trucking, except with storage ³
pt. 4721 ²	Travel agents
8072	Dental laboratories
8111	Legal services
8911	Engineering and architectural services

The following groups of Services Division, as presented in the SIC Manual, are excluded from the scope of this census:

SIC code	Title
702, 704	Rooming houses and organization hotels
80 (exc. 8072)	Medical and other health services, except dental laboratories
82	Educational services
84	Museums, art galleries, and botanical and zoological gardens
86	Nonprofit membership organizations
88	Private households
89 (exc. 8911)	Miscellaneous services, except engineering and architectural services

Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this census. However, nonprofit establishments operated to provide recreational facilities for their members (part of SIC 79) and whose income is exempt from payment of Federal income tax under the provisions of section 501 of the Internal Revenue Code are not included. Also excluded are services from other divisions of the SIC Manual, other than travel agents (part of Industry 4721) and the specified transportation services of SIC codes 41 and 42.

CENSUS DISCLOSURE RULES—In accordance with Federal law governing census reports, any data which would disclose the operations of an individual establishment or business organization are not published. However, the number of establishments in a kind of business is not considered a disclosure, so that this item may appear in instances where other items of information for the same kind of business or locality are withheld.

CORRECTIONS TO DATA—Data in this report comprise the statistical portions of previously published reports. Errors found after such publications were issued have not been carried to this report unless they significantly affect the data. As a result the detail in some tables may not add to totals.

² Of codes 4111 and 4119, only bus transportation is included in scope of the 1967 Census of Selected Services; and of code 4721, only travel agents.

³ Only bus and truck carriers not subject to Interstate Commerce Commission economic regulations are included in the scope of this census.

OTHER FINAL REPORTS (UNBOUND)

Reports containing 1967 Census of Business data which are not included in the bound volumes described above are--

MAJOR RETAIL CENTERS REPORTS (SERIES BC67-MRC)

A summary report and a report for each State containing one or more standard metropolitan statistical areas (SMSA's). Each report presents statistics for each SMSA in the State, the major retail centers (MRC's) in the SMSA, and the central business district (CBD) in each city with 100,000 inhabitants or more in the SMSA. Statistics for the CBD are presented for retail trade by kind of business. Data for each major retail center include (a) sales and establishment counts for total retail trade and for three major subgroups of retail trade and (b) establishment counts only by detailed kinds of business. These reports have been issued as series BC67-MRC.

RETAIL MERCHANDISE LINE SALES REPORTS (SERIES BC67-MLS)

A United States summary report and a report for each State. Each report presents statistics on (a) number of establishments and total sales for establishments in a specified kind of business, (b) the number and total sales of those establishments reporting their sales by the 25 broad merchandise lines, (c) the percentage of total sales accounted for by each of the 25 broad lines, and (d) for establishments handling a specific line, what percent of their total sales is represented by sales of that line. Additional merchandise line detail is shown for selected kinds of business. These reports have been issued as series BC67-MLS.
